- FOX-shelves keep order
- the TEKNO-family is growing
- new case series SWING

Foxboxes

keep order and look
really good

Fox isn't just a visual-box and transportation bin. FOX can do much more- they look good for example! Put together just in a few minutes into an elegant wheel-shelf, they don't need to hide behind the desk.

With FOX shelves you can use every corner, even underneath stairways or corners, where usually no shelf would fit in. Using your own creativity you can put up a shelf in the individual size you need – just by using rods and tubes. No tools needed!

FOX boxes are made of high-impact proven, environmental friendly polypropylene (PP) and are available in four different sizes, all are conform to the Euro-size. They come with wheels or wall strips. All this to a extremely affordable price!

Don't need to hide – the FOX trolley will keep order with easy access. Even underneath a stairway - with a FOX shelf you can use every available space without losing the elegant looks!

Keeps order in four different sizes; with easy access at any time.

On the desk or underneath – the FOX-box will help to keep order.

Additional to the standard colours red, green, yellow and blue FOX-boxes are now available in white, grey, transparent and green-transparent. Because of the colour diversity we now have opened up doors to use FOX-boxes in hospitals, doctors-offices, laboratories, offices ...

What's new at W.AG?

In the following we would like to introduce our newest products to you. Should you be interested in visiting us at our plant, please contact us for an individual appointment. We would be more than happy to welcome you!

Please don't hesitate to contact us for a free sample of our new cases! ▶

The TEKNO-series is expanding:

today we will introduce to you a new size: the TEKNO 2003S; a small version of the already available TEKNO 2003 with the important DIN A5-format.

The next Newsletter will be published in a few weeks; one issue will be the "new bicycle case" in the "shine design".

Experience with us the premiere of our newest innovation: the SWING – series!

SWING is a high-quality case for presentation. This eye-catching case will naturally direct the attention to your product. We will show you the first size in this series in the format „DIN long“.

Other sizes will follow!

In own matters

Dear ladies and gentlemen,

today you've received our Newsletter for the first time.

Our Newsletter will be published at least four times a year to inform you about innovations from W. AG and other interesting news concerning function and design.

We have great plans for the future and we are happy to have found with this newsletter a tool to keep you informed about what's going on at W. AG and in the plastic-industry.

*Kind regards,
W. AG Funktion + Design*
