Charmilles HD 8*

WAG Werkzeug- und Formenbau GmbH

CNC - HSC - Workingcenter Fehlmann Picomax 60-M, as well as a CNC Workingcenter DMG 104V linear.

Mounting of a tool

CAD - Programming

The WAG Werkzeug- und Formenbau GmbH in Brattendorf has been founded November 1, 2004 as a daughter of W. AG Funktion + Design. This company has already been working with W. AG Funktion + Design since 3 years and is therefore very familiar with the matter cases. Another priority are injection moulding tools for the automobile industry, but custom-made tools can also be manufactured, for example various container-parts made from plastic or special packaging for products in general. With this business-extension we concentrate our compe-

tence in developing, construction and tool making for cases and containers. The goal is to realize custom-made solutions- starting from the idea all the way to the dispatch of printed and with foam-inlays fitted cases- all this to the keenest price. The very modern developing techniques and the possibilities to combine different working steps are making even projects on a short term basis possible.

Please contact us, we will explain to you the new possibilities.

PSI stand 3 D20
January 5-7, 2005
in Düsseldorf, Germany
(*only for PSI-Members)

In own matters

Dear Ladies and Gentleman,

We would like to wish you and your families a wonderful Christmas as well as health, luck and success for the coming year.

*Your team of
W.A.G Funktion + Design!*

Invitation to the trade fairs PSI and Paperworld

*The next
Funktion +
Design
will be published
in February*

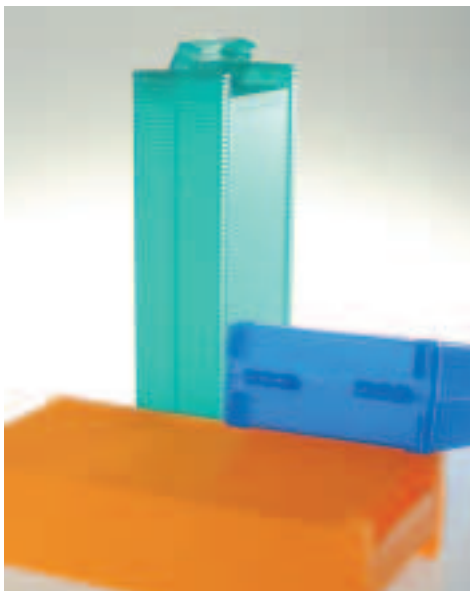

We would like to invite you in January to visit us at the PSI, stand 3 D20 as well as to the Paperworld, stand 4.1 H02. This is the chance to take a close look at our newest product, the SWING case.

► *Ask for your personal sample of SWING. All you have to do is call 0049-36967-6740*

PAPERWORLD

**Paperworld stand 4.1 H02
January 26-30, 2005
in Frankfurt/Main, Germany**

SWING is our new case series in up-right format. With a futuristic design and highest expectations towards functionality as well as attractiveness you will have the possibility, to pack your products very practical and at the same time very modern. Get to know SWING- either on the trade fair or ask for your personal sample.
