# The TEKNO cases

The plastic cases TEKNO are nicely shaped and sturdy. Inlays can be created individually. Choose from 17 different sizes, there will be surely one for your needs. Additional to the five standard colours we are able to produce also in individual colours of your company. This is what we call Corporate Design up to the packaging!

T 2003 S T 2003 M T 2003

► The smaller TEKNO 2003 is now available in three different thicknesses. That way, smaller parts in different heights can be packed very efficiently. These cases are also well liked for the representative employment, especially in translucent colours.

▼ TEKNO cases are mostly sold in the colour combination silver-grey with blue locks. With altogether 17 different sizes the TEKNO series is unbeatable.

▲ TEKNO offers for every job the perfect case – for the heavy employment are these double walled blow moulded cases the right decision.

The case inlays are made in coordination with the weight and function of the parts. No rattling of parts, damages and no mess. Just put the parts in.

Through special colours and print it is possible to create every case individually. That way, your Corporate Identity is guaranteed. Call us, we will be happy to assist you with all questions you may have.

**Standard colours:**

black, red, blue, silver-grey, transparent

**Locks:**

black, red, blue
